Area:	Needed Development:	Projected Date:
About	-people: Link to history and student featured blogs. Maybe a page with feed of PI socials from the flickr -Locations: Link to map with directions -equipment: new page with a list of the tools we have	
Gallery	-Feed from our projects flickr	
Get Involved	-New Inventors: link to page with hours, and how to -Returning Inventors: Links to pages with 3D print job and the equipment wiki	
Upcoming Events	-Feed from a google calendar, event with links to sign-up	
Sponsor Us	-Amit J's information	
Contact	-Connect to list?	
Log-in to Members area	button to log in to members area with GT credentials -Access list controlled with a google spreadsheet. Is this possible https://docs.google.com/spreadsheets/ccc?key=0AkAHFWBO3BIEdHhSeUJtampGSzJNZW55eTVqWkFHM1E&usp=sharing	

Staff Area: (Members Area)

Ideally this page could be customized per user (as in the boxes could be freely moved, and the placement would be remembered. All boxes should appear somewhere on the page. The need for links and feeds is because we never want to update the website, by changing anything in the code. There are 70 PIs that rotate every four years with little computer experience, a rarely willingness to learn CS. Keep everything as GUI based and organic as possible. This is a hub for all our current operations. Once in this portal, everyone should have open access. However, there needs to be a means of seeing what particular users do.

Area:	Needed Development:	Projected Date:
E-mail Archive	Archived e-mails send to the list	
Directory	Feed from google form https://docs.google.com/spreadsheets/ccc?key=0AkAHFWBO3BIEdHhSeUJtampGSzJNZW55eTVqWkFHM1E&usp=sharing	
Task List Request button	-link from Google form	
Task List	-Feed from a google spreadsheet {Task, Name, Date completed}	
Buy List Request	-link to request equipment form	
Wishlist	Feed from google spreadsheet	
Schedule	Feed from shiftplanning with switch functions---or google spreadsheet
